

# Gasparre Tiles

Stunning tile concepts for large and small residential projects

**GASPARRE** Tiles, a family business started more than 40 years ago, has one of the largest tile showrooms in Sydney, with more than 4000 tiles displayed luxuriously over two light-filled floors. With an emphasis on

quality Italian porcelain, it has earned a reputation for stocking unique and specialised ranges not found elsewhere.

This creative edge allows Gasparre Tiles to push the boundaries of design as the Italian market sets the trends →

for colour, texture and size. With literally hundreds of suppliers, Gasparre Tiles has access to all imaginable styles and looks, with full bathroom concepts on display at the showroom to help you visualise how your new bathroom can look.

Gasparre Tiles understands that the selection of tiles is one of the more difficult and important of any project, so it has assembled an experienced team — including a qualified interior designer — to guide you. A kids' playroom and Playstation

will keep the children happily amused while you relax on a comfortable lounge to discuss and plan your bathroom over Italian coffee and treats.

The service doesn't end there — Gasparre Tiles prides itself on its after-sales

service and will assist with the selection of tilers and bathroom contractors. And, because Gasparre Tiles works almost exclusively with residential clients, your project will receive the attention it deserves.
